

## James Peskuski

### *Senior Vice President*

James Peskuski is Senior Vice President of Matot, Inc. ([www.Matot.com](http://www.Matot.com)), a fourth-generation innovator and manufacturer of commercial grade lift solutions for commercial, healthcare, institutional and residential environments.

As part of the Matot team since 1972, James has a long history with the company and is a member of the Matot executive management team. In his current role, he is responsible for management of all commercial sales functions, with emphasis on large account customer relations.

In addition, James oversees sales reports, sales forecasts and sales aspects of Matot's strategic business plan. During his vice president tenure, which began in 1987, James initiated product introduction and marketing efforts for new products including residence elevators, electronic signal fixture chimes and automatic transfer dumbwaiter systems. He began his Matot career as a customer service representative followed by sales manager.

James received a Bachelor of Science degree in business administration from Illinois State University. He is the chair of the Dumbwaiter/Lift committee of the American Society of Mechanical Engineers A.17 Code for Elevators. James is also an authorized presenter for the American Institute of Architects Continuing Education programs relating to vertical material handling systems and applications. James lives in Wheaton, Illinois.
