

The Best Hospitals Trust Matot

In the Healthcare industry, the transportation of goods between floors is a critical part of the functionality of a hospital. Dumbwaiters offer an efficient vertical transportation solution to move food, clean and dirty surgical supplies, and other goods and cargo. Because a dumbwaiter or material lift is smaller and uses less energy than a freight or cargo elevator, they make a very **cost-effective, sustainable solution** for many applications.

US News & World Report released its 2017-18 Best Hospitals Honor Roll, and **Matot is proud to manufacture lifts that are installed in 17 out of the Top 20 Hospitals in the USA.** With over 129 years of experience providing vertical transport solutions, Matot is an integral part of daily operations at the country's top hospitals. These hospitals trust Matot to manufacture durable lifts that last for decades.

U.S. News & World Report

Join the ranks of these Top Hospitals – make your next dumbwaiter or lift a Matot!
